### What's New in the 4k Facebook Downloader?

4k Facebook Downloader is a useful and professional utility to save videos to your Windows computer, like iPhone/iPad. It allows you to save videos from any website in the entire Internet in MP4, MOV, MPEG, 3GP, HD FLV, GIF and other formats. And 4k Facebook Downloader also supports a lot of video sites. Furthermore, you are allowed to do batch saving for files in a single click or select the video URL from the list in the right panel. With a double-click, this program will just open a website in the default Internet browser to save the video. The latest version has added a new function which is "cloud lock", "snapshot" and "cloud download", it allows you to easily download the Internet videos to your local computer without the need of any internet connection. It's also very easy to use. Just like other similar programs, 4k Facebook Downloader is a good choice for the beginner, and it is very comfortable and helpful for more experienced users. It can be used as a one-stop download tool for downloading videos from the Internet. Features: 1.It supports saving Facebook videos 2.It is easy to operate 3.It is able to save websites videos in all video formats 4.It is able to cut videos into many pieces 5.It can support many websites and different videos PCRE is a library of regular expressions. PCRE is written in the C programming language. PCRE is free software distributed under the GNU GPL. The utility offered by this package is PCRE\_Loader. The main purpose of the PCRE\_Loader program is to create DLL files that will be called by regular expressions that come with the PCRE package when they are used. The main advantages of this application are: 1.The DLL files created by it can be used with each regular expression. 2.They allow you to create regular expressions whose operating speed will be increased. 3.They can be used with the Java syntax which in turn shortens the program's programming work. PCRE\_Loader has a very clean interface, and it is easy to use. Key points to remember: The PCRE\_Loader program also allows you to load libraries, and the type of the library can be set. If you want to use a library, the type of the

---

library must be set. In addition to this, the DLL name should be set. Adopt shows
